FINAL EFFORT AGAINST SEPARATION

Bill to Form Old Norwich is Now in Hands of Committee-Superior Court.

Produced Official Records. Corporation Counsel Joseph T. Fanring presented to the committee a copy of the efficial records concerning the annexation of a part of Preston to the town or city of Norwich, showing a vote of the court of common council against the proposition. Separation District Fairly Treated. that it is planned to separate has been very fairly treated in the matter of town officers and at the present time all the selectmen reside outside the city limits. He was not in favor of separation and the sentiment is overwhelmingly against separation. The only place where there is any sentiment is in Taftville, where the Poneman mills are located. Mr. Holbrook had queried over a thousand people in seeking the sentiment and, if necessary, they would come to Nor-wich and testify.

Judge Brown's Views. Judge Lucius Brown said he was assured that there was not 10 per cent. of the voters of the town in favor of annexation, and he earnestly asked the committee not to favor the separation of any town. No new town has been made in 24 years and he hoped there would not be another. He did not think the present legislature would favor any new town formation. Judge Brown read a quotation of Timothy Dwight which referred to the solidity of towns and the necessity of standing with unbroken lines. He asked the committee not to take the initiaive in the formation of new towns. Ie was also opposed to consolidation, but if the city wants a part of the lown, and that part wants to come in

The water system is one of the best in New England and at the time the fire underwriters visited Norwich the system was prior to the present improvements. The service, fire and domestic, has been extended into the Taftville district. In the proposed new town there are eight miles of water pipe, a part of the city service, with fire hydrants in the Taftfire engine located in Yantic, of an ville section, 13 in Norwich Town and antiquated type and about 85 per cent. Mayor Timothy C. Mr. Murphy added that if Mr. Eccles, late of the Ponemah mills, had been spared, there would have been no pe-tition for separation before the committee.

General Sentiment Against Change. Board of Trade, told the committee it would be detrimental to the town if separation prevailed. The general sentiment is decidedly opposed to any separation, and also to annexation, unless there was desire to be annexed by the residents of the sections of the town interested.
